

THE NANNY NETWORK CERTIFIED BY THE WOMEN'S BUSINESS ENTERPRISE NATIONAL COUNCIL

BALTIMORE, MD—09/08/2026— The Nanny Network, a business specializing in professional in-home child care and household support services, is proud to announce **national certification as a Women's Business Enterprise** by the **Greater DMV Certification Committee**, a regional certifying partner of the Women's Business Enterprise National Council (WBENC). **WBENC Certification is the gold standard for women-owned business certification in the United States.**

"Supporting women's ability to fully participate and thrive in the workforce has been at the heart of why I chose to build The Nanny Network," said **Dulany Reeves Dent, President and CEO of The Nanny Network**. "I've seen firsthand how access to quality child care can create greater economic opportunity for women, and I'm equally passionate about the opportunities that come with women owning and growing businesses. Becoming WBENC Certified allows us to connect those two parts of our mission, helping women pursue their careers while joining a network that creates greater access, visibility, and opportunity for women-owned businesses. I'm incredibly proud of what this represents for The Nanny Network and excited about the doors it can open for our continued growth and impact."

The WBENC standard of certification implemented by the Greater DMV Certification Committee is a meticulous process, including an in-depth review of the business and a site inspection. The certification process is designed to confirm the business is at least 51% owned, operated, and controlled by a woman or women, and that the business has appropriate structure and strategic business planning and implementation in place.

By including women-owned businesses among their suppliers, corporations and government agencies demonstrate their commitment to fostering diversity and the continued development of their supplier diversity programs, which in turn empowers women as leaders and brings about a more diverse, balanced and sustainable economy.

WBENC Certification combined with professional development and engagement in the WBENC network provides unsurpassed opportunities year-round, both virtually and in-person, for women-owned businesses to grow and expand their business and innovation through events, programming and connections with major corporations and other WBEs.
